How we make it *and why it works*

Over the last 27 years, I have been asked the same question over and over. “Why does Aloe Up work so much better than other brands?” My answer is always the same – “It’s the Aloe Vera Gel.” We grow our own Aloe on 600 acres in Harlingen, Texas. The strain we grow is the Aloe Barbadensis Lenny Miller which is the best type for cosmetic and food grade uses. Most sunscreens and moisturizers are based with water or mineral oil and a manufacturer may put a drop or two of Aloe Vera in there for marketing purposes. A drop or two won’t do the trick. If you don’t put in at least 20% by volume of pure Aloe Vera Gel, you will not get the true benefits of Aloe Vera Gel. Aloe Up starts with the most effective Aloe and uses at least 35-96.9% in each product we produce. That is why we control the growing of our most important ingredient, Aloe Vera.

- Tom Whaley (Owner)

We grow our own aloe on 600 acres in Harlingen, Texas.

“THE ALOE YOU
THINK OF AS A
SUNBURN
HEALER IS AN
EVER BETTER
SUNBURN
PREVENTER.”

There is a lot more to the science of Aloe and why it works. Aloe Vera Gel, when applied to your skin or ingested, will stimulate your immune system into action. This helps your body naturally regenerate skin cells and is why Aloe makes for such a great moisturizer and burn relief product. Aloe also reduces swelling and stops itching. What most people don’t know is that Aloe is the same PH as your skin and is a great penetrator. With Aloe Up Suncare, we use a base of Aloe to carry the sunscreen down into your pores so it doesn’t sit on top of your skin and feel greasy or wash off easily.

ALOE UP[®]

ACTIVE COLLECTION

» GET OUT THERE

Built for the active lifestyle, Aloe Up's Sport Line is aloe based, non-greasy, fragrance-free, water resistant and absorbs quickly for a comfortable and light-weight feel.

Our Broad Spectrum formulas are certified biodegradable. Wherever your adventure brings you, Aloe Up has you and our sensitive reefs protected.

We have removed Octinoxate and Oxybenzone and made our sunscreen biodegradable in both fresh and salt water to help protect the ocean and coral reefs.

A close-up photograph of several slices of fresh aloe vera leaves. The slices are stacked, showing the thick, clear, gelatinous inner pulp and the thin, green outer skin. Numerous small, clear water droplets are scattered across the surface of the slices, giving them a fresh and hydrated appearance. The background is a soft, out-of-focus green, suggesting more aloe vera leaves.

OUR MAIN INGREDIENT

Most people know a little about Aloe Vera Gel, but not the whole story. We know it's good for you, natural and helps with burns. How many times have you come back from the beach with a bad sunburn – then, someone finds an Aloe Vera Leaf, breaks it open and rubs the gel on your burn? Feels better, right?

Why Aloe?

Over the last 35 years we have been asked the same question over and over, “why does Aloe Up work and feel so much better than other brands?” Our answer is always the same – “It's the Aloe Vera Gel.” Most sunscreens and moisturizers are based with water or mineral oil and manufacturers may put a drop or two of Aloe Vera in there for marketing purposes. A drop or two won't do the trick, you must put in at least 20% by volume, of pure Aloe Vera Gel, to get the true benefits of Aloe. Aloe Up uses at least 35%, which is the highest in the industry. Our Aloe is grown and processed in Harlingen, Texas which is the top region in the world for growing the most effective strains of Aloe Vera.

The Science of Aloe Vera

Aloe Vera Gel will stimulate your immune system to naturally regenerate skin cells making it a great moisturizer and burn relief product, Aloe also reduces swelling and stops itching. What most people don't know is Aloe has a similar PH to your skin and is a great penetrator. In all of our formulas, we start with a base of Aloe Vera to carry the sunscreen down into your pores so it doesn't sit on top of your skin and feel greasy or wash off easily. The reason why Aloe Up works better, feels better, and lasts longer is because of Aloe Vera Gel.

BUILD YOUR OWN KIT in 3 simple steps

STEP 1

Choose a bag from our collection.

Aloe Up's large variety of bag options will make it easy to find the perfect kit that meets your client's price point. All the bags can be personalized with screen print or romance card. High quality allows these kits to be used well after the event has ended.

STEP 2

Choose product to include in kit.

Aloe Up is a trusted brand around the world, found in premium hotels and resorts, golf shops, and national parks. Wherever the destination, Aloe Up has the perfect product your client needs.

STEP 3

Choose what products you want to personalize.

Now that you know what type of kit you want to build, let's choose what quality products to customize. We have multi-flavored lip balms, sunscreen bottles and sticks, and various sized sanitizer options.

- Personalized items featured on large mesh bag: >>>>>
- 3.3 oz sanitizer
 - Carabinered SPF 30 sunscreen bottle with SPF 15 lip balm combo
 - 10 mL pen spray sanitizer

CUSTOM LIP BALM

Powerful impressions are common with custom Aloe Up lip balms. This is the lip balm that becomes your favorite. You use it over and over for an average of three months and you see that logo and message hundreds of times. Don't make the mistake of buying that cheap version that only gets used once and then thrown away. Insist on our premium lip balm made with Aloe Vera Oil. It is never waxy and goes on smooth and silky.

3 simple steps to keep you safe in the sun

ALWAYS START WITH LOTION

1 apply first thing in the morning

- Use Aloe Up SPF 30 or 50 lotion.
 - Wait 30 minutes before you go in the water or sun.
- The first application of **SPF LOTION** is the most important because it will soak into your skin and bond, preventing sunburn. It provides the perfect base coat of sunscreen for the day.

EVERY 2 HOURS

2 reapply during the day

- Reapply SPF 15, 30 or 50 lotion or spray every 2 hours while in the sun.
- Wait 15 minutes before going back in the water so Aloe Up can penetrate your skin and bond.

DO NOT SKIP THIS STEP

3 moisturize at the end of the day

- Apply Aloe Ice Jelly.
 - Repeat before bed.
- This final application is very important.** Do not skip this step. Aloe Ice not only aids in sunburn relief, but is the most effective moisturizer in the Aloe Up line.

Art Guidelines

- Electronic Artwork: Electronic artwork files are preferred. Artwork provided needs to be vector art with all text converted to outlines, curves, or paths. We will accept Adobe Illustrator or EPS files.
- You can email your artwork to: artwork@aloeup.com
- Unacceptable File Formats and Artwork: We do not accept PowerPoint, Microsoft Word, Publisher, HTML, GIF, JPG. We also do not accept business cards, faxes, letterhead, photocopies, or actual products as artwork. If artwork needs to be touched up or reworked we bill \$100(R) per hour.
- PMS Color Matching: There is no charge for PMS Color Matching. Exact PMS colors are not guaranteed. Purchase order and electronic artwork provided **MUST** indicate PMS colors. We will make every effort to come as close as possible to the desired PMS color.
- Set Up Charge for 4 color process label or 1 color screen: \$83 (R)
- We will print to Maximum Size unless noted on the order.

Policies, Ordering & Disclaimers

- Catalog Photography: Due to photography lighting the color of items in this catalog may appear different than the actual item. We strongly recommend that you request a sample to see the actual color.
- Disclaimer: Products and Logos in this catalog appear only to illustrate the basic products and their ability to include an advertising message. They are never intended to suggest that imprints were designed by this company. The products with those specific imprints are not readily available to any purchaser without permission of the owners of the trademark or copyrighted art or copy.
- Drop Ship Charge \$6.00 (V) per location after the first.
- International Shipping: Duties and Taxes are not included. A Third Party number is required on all orders shipping overseas. We do not ship directly overseas, a Freight Forwarder must be used to clear customs as SPF is a drug.
- Any Spray products can not ship via Air, they must ship ground per FAA rules.
- Less than Minimum on lip balm is \$25(R). Absolute minimum on lip balms is 50 pieces.
- If multiple flavors are requested, 100 quantity minimum per flavor is required. There will be a \$20 (P) charge per flavor.
- Less than Minimum on Bag Kits is \$100(P). Absolute minimum on kits is 25 qty.
- If the order is for blank merchandise, the Less than Minimum charge would not apply.
- Cancellations: If an order has been imprinted, a cancellation can not be accepted. If an order is not imprinted at the time of cancellations, charges will be made for the production work done at the time of cancellation.
- FOB: Minneapolis, MN
- Origin of Products: USA made for Lip Care, Sun Care & Skin Care products.
- Free Spec Samples on lip balm, sanitizer, and sunscreen products, with shipper number. Email to connie@aloeup.com.
- Free Virtual Digital Specs on all bag kits.
- Random Samples up to \$15.00 net EQP at no charge with shipper number.
- Partner lines are not included as free samples.
- Additional Color Run Charge for screened items: \$.50 (R) per color/bag.
- Production Time for labeled items is 7-10 days after proof approval.
- Production Time for screened items is 10-12 days after proof approval.
- Rush Service is available for kit orders - please call factory for quote.
- Orders can be emailed to connie@aloeup.com.
- +/- 5% on all orders. Exact Quantity \$100.00 (P)
- Prices subject to change without notice.
- If Lip Balm flavor is not noted on PO, Natural Flavor will be used.
- If Carabiner colors is not noted on PO, Silver will be used.
